

Solving for Y Scavenger Hunt

$$3x + y = 7$$

$$-4y + 6x = 12$$

$$3x - y = 10$$

$$3 - 6y = 10x$$

$$-x + 2y = 14$$

$$-8x + 6y = 28$$

$$-5x - 2y = 42$$

$$-10y - 10 = 30x$$

$$3y - 5x = 21$$

$$2x + 3y = 8$$
